United States Postal Service (Processing Clerk, Part-Time, Hixson)

Non-Scheduled Days: VARIES

Hours: VARIES

1. Makes one or more sortations of outgoing and/or incoming mail using the appropriate sort program or manual distribution

Scheme. 2. On a rotation basis, performs all of the following duties: loads mail onto automated equipment, culling out non-processable

items; enters sort plan and starts equipment; monitors flow of mail to ensure continuous feed; sweeps separated mail from

bins stackers; and stops equipment when distribution run or operation is completed. Runs machine reports, clears jams and

contacts maintenance for assistance when required. 3. Prepares work area, ensuring all necessary support equipment and materials, including labels, trays,

and other containers, are in place. 4. Removes sorted mail from bins or separations and places into appropriate trays or containers for further processing or

dispatch based on knowledge of operating plans and dispatch schedules, or at the instruction of supervisors or expeditors; may riffle or verify mail to

ensure sortation accuracy as needed. 5. In addition, may perform any of the following duties: provide service at public window for non-financial transactions; maintain records of mails; examine balances in advance deposit accounts; and record and bill mail requiring special service. 6.

Follows established safe work methods, procedures and safety precautions while performing all duties. 7. Performs other duties as assigned.

Volkswagen (Production Team Member, Full-Time, Chattanooga)

Openings are available for production team members working at the Volkswagen Chattanooga plant. These are Contract-to-Hire positions!

This is a very demanding position. Consistently on feet and will be lifting, pulling, and pushing 25-75lbs repetitively throughout an 8-12 hour shift.

There is a lot of OT- Could potentially work up to 72 hours a week based on production needs. On average, production works 50-55 hours a week.

Each shop has various requirements. We are currently hiring for Assembly, Body, Logistics and Paint.

Assembly- Responsible for assembly the parts to the vehicle down the production line. This is extremely fast-paced.

Body- Must complete lock out/tag out training. These positions are responsible for the equipment that welds the body frame of the car together. These are

typically more machine operators who are loading and unloading parts into the equipment/machine.

Paint-Requires wearing a paint suit. The environment can be very hot temperature-wise. They manage a very detail oriented process

Logistics- These positions must complete forktruck/forklift training. The positions are typically material handling positions and may require lifting up to 75lbs repetitively throughout the shift.

McKee Foods (Production Workers, Full-Time, Chattanooga)

Do you already work the night shift? Are you looking for a good job with a great company? We get it, 3rd shift is tough and it's not for everybody, but some people need a 3rd shift schedule anyway. Is that you?

The production worker job includes multiple job roles. The "Feeder" takes the unwrapped product off the conveyor belt and puts it into a track that goes through a machine that wraps it into individually wrapped packages. The individually wrapped packages go to the "Catcher" who puts them into boxes you see on your grocery store shelf. Those boxes go to the "Palletizer" who puts them into shipping cases that go off to the shipping department. In some areas you may rotate between the positions so on a daily basis you would likely perform all three of the tasks throughout the day. In other areas, you have to learn all three tasks, but will primarily be assigned to one and just move to the others as needed. These tasks may be automated at varying degrees and tasks can differ but we thought you'd like to get a better idea of what you would be doing every day.
